DOCKETED BY

In the matter of:

West Mining and Innovations, Inc., an Arizona  
corporation,

Avison C. (AC) West and Barbara M. West,  
Husband and Wife,

Respondents.

DOCKET NO. S-20661A-09-0108

**TEMPORARY ORDER TO CEASE AND  
DESIST AND NOTICE OF  
OPPORTUNITY FOR HEARING**

**NOTICE: THIS ORDER IS EFFECTIVE IMMEDIATELY**

**EACH RESPONDENT HAS 20 DAYS TO REQUEST A HEARING**

**EACH RESPONDENT HAS 30 DAYS TO FILE AN ANSWER**

The Securities Division ("Division") of the Arizona Corporation Commission ("Commission") alleges that Respondents West Mining and Innovations, Inc. and Avison C. West are engaging in or are about to engage in acts and practices that constitute violations of A.R.S. § 44-1801, *et seq.*, the Arizona Securities Act ("Securities Act"), and that the public welfare requires immediate action.

**I.**

**JURISDICTION**

1. The Commission has jurisdiction over this matter pursuant to Article XV of the Arizona Constitution and the Securities Act.

**II.**

**RESPONDENTS**

2. Avison C. (AC) West ("WEST") is an individual residing in Maricopa County, Arizona.

1           d)     That the investment based in gold is safer than the stock market. He also  
2     stated that, "[t]his is about as safe as it can get for an investment that can return so much";

3           e)     That the Spot rate for gold would not fall below \$500 a troy ounce  
4     minimum;

5           f)     That WEST had "access to some extremely rich gold reserves that are prime  
6     to tap";

7           g)     That the recovery of the gold would be based on a new high-tech science  
8     method developed by WEST; and

9           h)     That an additional profit could be realized by securing government contracts  
10    or government funds that were earmarked in a recent legislative bill to clean up, reclaim and close  
11    abandoned mines in Arizona.

12         9.     However, WEST can not ensure that the spot gold price would not fall below \$500 a  
13    troy ounce minimum since that is dictated by market force.

14         10.    An Arizona offeree contacted WEST as a result of this advertisement.

15         11.    On or about March 9, 2009, WEST, on behalf of WM&I, responded and transmitted  
16    a document titled "The Project" to the offeree describing the investment opportunity. The Project  
17    document stated the following:

18           a)     That WEST would purchase the historic "Vulture Mine" located in  
19    Wickenburg, Arizona;

20           b)     The Vulture Mine is currently flooded and has "over 30 MILES of flooded  
21    tunnels, there are literally billions of gallons of rich gold bearing waters to process" (*emphasis in*  
22    *original*);

23           c)     That WEST's high-tech extraction method would allow him to extract and  
24    collect gold on a microscopic or sub-atomic level from the water and salt deposits that can be  
25    collected from the Vulture Mine. This would result in a greater overall extraction of precious  
26

1 metals, particularly gold, because of its exposure to gold and the ounce-per-ton ratio would be  
2 much greater than traditional ore extraction methods;

3 d) That dissolved gold is present in normal water and that WEST's proprietary  
4 system can extract such "dissolved gold" and other precious metals with high purities for profit. In  
5 fact, WEST's Project document presents a visual extraction and recovery of gold from a particular  
6 "clay" that is used in kitty litter and by using his proprietary process he stated he was able to  
7 extract and recover gold from that kitty litter;

8 e) That WEST's proprietary process when used to process and extract gold and  
9 other precious metals from the Vulture Mine would allow WEST and WM&I to pay back the  
10 investor and "literally - within just a few months - be able to buy the entire mine outright" too;

11 f) That WEST tested his proprietary process on fifty (50) pounds of salt  
12 obtained from a particular region in the USA and was able to yield five (5) grams of pure gold, as  
13 displayed in the Project document with attached pictures. This test extrapolated out to a recovery  
14 rate of 10 ounces of gold per ton of salt;

15 g) That through the Bureau of Mines or the Federal Bureau of Land  
16 Management, WEST has access to additional flooded mines that he could mine to secure the 100  
17 troy pounds of gold to repay the total \$50,000 investment; and

18 h) That an additional return on investment was possible, based on WEST's  
19 knowledge and experience and resulting from WEST acquiring "abandoned mine sealing contracts  
20 as they become available from the government stimulus money being funneled to the Department  
21 of the Interior, which oversees the mining industry both federal and state."

22 12. Pursuant to the public records of the Arizona State Land Database and the  
23 Department of the Interior Bureau of Land Management, Mining Claims, WEST and WM&I does  
24 not possess any state or federal mining claims in Arizona, which would be required to mine and  
25 extract precious metals on state or federal land.

13. Respondents fail to disclose the material risks associated with the investment, including but not limited to, the fact that an investor could lose all or a large portion of their principal investment. Neither the website posting nor the transmitted information discloses any material risks associated with the investment.

14. At all times relevant, WEST was not a registered salesman or registered dealer and WM&I was not a registered dealer.

## IV.

**VIOLATION OF A.R.S. § 44-1841**

**(Offer and Sale of Unregistered Securities)**

15. From on or about March 3, 2009, WEST, individually and/or on behalf of WM&I, has been offering or selling securities in the form of preferred stock and investment contract, within or from Arizona.

16. The securities referred to above are not registered pursuant to Articles 6 or 7 of the Securities Act.

17. This conduct violates A.R.S. § 44-1841.

**v.**

**VIOLATION OF A.R.S. § 44-1842**

**(Transactions by Unregistered Dealers or Salesmen)**

18. WEST is offering or selling securities within or from Arizona while not registered as a dealer or salesman pursuant to Article 9 of the Securities Act.

19. WM&I is offering or selling securities within or from Arizona while not registered as a dealer pursuant to Article 9 of the Securities Act.

20. This conduct violates A.R.S. § 44-1842.

## VI.

## VIOLATION OF A.R.S. § 44-1991

## (Fraud in Connection with the Offer or Sale of Securities)

21. In connection with the offer or sale of securities within or from Arizona, Respondents are, directly or indirectly: (i) employing a device, scheme, or artifice to defraud; (ii) making untrue statements of material fact or omitting to state material facts that are necessary in order to make the statements made not misleading in light of the circumstances under which they are made; or (iii) engaging in transactions, practices, or courses of business that operate or would operate as a fraud or deceit upon offerees and investors. Respondents' conduct includes, but is not limited to, the following:

a) Stating that the Spot rate for gold would not fall below \$500 a troy ounce minimum. However, WEST can not ensure that the spot gold price would not fall below \$500 a troy ounce minimum since that is dictated by market forces;

b) Stating that WEST has access to additional flooded mines through the Bureau of Mines or the Federal Bureau of Land Management that he could mine to secure the 100 troy pounds of gold to repay the total \$50,000 investment. However, pursuant to the public records of the Arizona State Land Database and the Department of the Interior Bureau of Land Management, Mining Claims, WEST and WM&I does not possess any state or federal mining claims in Arizona, which would be required to mine and extract precious metals on state or federal land.

c) Stating that the investment based in gold is safer than the stock market and that "[t]his [investment] is about as safe as it can get for an investment that can return so much." However, WEST failed to disclose the material risks associated with the investment, including but not limited to, the fact that an investor could lose all or a large portion of their principal investment. Neither the website posting nor the transmitted information discloses any material risks associated with the investment.

22. This conduct violates A.R.S. § 44-1991.
